

Dear Friends,

As president of Matcom, I am proud to say that our brand is one of the most recognized and respected in the Industrial Service Industry for over 40 years. During this time, Matcom has maintained our status based on our dedication to staying true to our vision and beliefs. In the beginning, Matcom specialized in machinery moving services. As time has gone on we have progressed into a company that offers multi-trade services; still delivering the same superior service we were built on. Matcom's success is due to our team's relentless dedication to providing an effective and efficient level of expertise.

It has always been our vision to be Canada's premier industrial machinery moving and servicing contractor. This is done through well-trained and experienced employees, providing successful solutions to meet the needs of our clients. In combination with their experience, our employees are constantly learning and adapting to be prepared to meet any challenge. I believe we will continue to grow and be known as one of Canada's premier industrial moving and service leaders.

Here at Matcom, we believe in the importance of family because Matcom was built on family values. We treat our employees and customers like family by truly caring for their needs and interests. Working together, Matcom employees have helped to create something special in the industrial service industry. It is with great pleasure that I consider this company an extension of my family.

Operating in the community of Vaughan for over 40 years, has allowed us to become an industry expert. I would like to thank the township of Vaughan for being a supporter of this company. Looking ahead we will continue to improve, strengthen and grow as an organization. I am confident that we have yet to reach our desired level of success and we will strive to become the standard in excellence in Canada.

I would like to thank our employees, customers and community for allowing us to be part of your lives. It is my promise that we will continue to efficiently and effectively provide industrial machinery and service solutions, that will help better your companies.

Sincerely

President Matthew Rix
